Getting Online

CORNERSTONE
FINANCIAL TEAM

Client Name _____ Today's Date _____

One of the challenges that a surviving family member faces, is accessing your digital property.

Digital property includes your login credentials to various websites and systems, such as email. Understanding that passwords are a sensitive piece of information that should be protected, if you don't wish to write down your passwords here, you will need to keep them someplace. Again, assume that you have passed. How is someone going to access your digital property? Regardless if you wish to use this page to write down your passwords or not, in the least, I suggest that you document the existence of your digital property using this page. For example, you might hold a separate savings account at an obscure bank. And you might only have online access (no paper statements).
